Letter from the Chair

Dear PFP Family,

Welcome to the 14th Annual PFP Conference! We are overjoyed to have our event fully back in person this year, the first time since 2019.

The theme for this year's conference is "**Reclaiming Family Values.**" In the current climate of attacks on LGBTQ+ rights, PFP is focusing our efforts at this event on learning how adults and kids can advocate for our families.

From creating anti-racist family manifestos to consulting with our free family law clinic, to practicing hard conversations with loved ones, to Rep. Kenyatta as our keynote, this year's programming is a diverse, practical, and joyous take on family values that actually value our families.

Whether this is your first conference with us or your fourteenth, welcome!

Warmly,

Michael Galvan (they/them)
PFP Board Chair

We at PFP feel it is important to name the land that we are hosting our event on and that the organizers occupy as stolen land.

As you can see on the map on the opposite page, Philadelphia and the surrounding areas are located on land stolen from the [Lenni Lenape](#) people.

Take time to educate yourselves and your children about the history and present-day lives of the indigenous people in the places you live, work, and travel. Use these online resources:

Keynote

This year's Keynote Speaker is Rep. Malcolm Kenyatta (he/him), a third-generation North Philadelphia native, thought leader, and legislator.

He earned a B.A. in Public Communications and a minor in Political Science from Temple University, an M.S. in Strategic and Digital Communications from Drexel University and completed the Harvard Kennedy School's Executives in State and Local Government program.

Rep. Kenyatta is a barrier-breaking public figure, becoming the first openly LGBTQ+ person of color and one of the youngest members elected to the PA General Assembly in 2018.

In 2022, he became the first openly LGBTQ+ person of color to run for the U.S. Senate in American history. In 2020, he was chosen by President Joe Biden and Vice President Kamala Harris to give the keynote address at the Democratic National Convention along with a group of other 'Rising Stars'.

He lives in North Philadelphia with his husband Dr. Matthew Kenyatta and their dog Cleo.

In my practice, I try to help people improve their lives by looking at their relationships. I believe that the ways of relating to others that we learn early in our lives can sometimes prevent us from reaching our potential in current relationships and in creative or occupational endeavors. I help my clients to examine and ultimately change their ways of relating so that they are less depressed and anxious and so that they are more satisfied in their lives.

This is a cat who once knocked over a pillow and scared himself so badly that he hid under the couch for two hours. We tried to tell him that he was safe, that it was a pillow and not a scary monster, but he wouldn't listen. **He's never going to get those two hours of his life back.**

Is that how you're treating your finances? You made a mistake, or had an unexpected expense, or argued with your partner, and now you're hiding under the couch instead of checking whether your bank account contains a scary monster or a harmless pillow.

Hi, I'm River, the financial planner behind Be Intentional Financial. I know we're all being oppressed by patriarchal, white supremacist capitalism. I know it's messed up that money is necessary for pretty much every aspect of our survival, and I know that makes it incredibly scary.

I also know that trans and queer families deserve safety and joy, both now and in the future.

So if you need help getting out from under the couch, don't hesitate to reach out. I offer free 30-minute Zoom consultations, so I can get a sense of what you need to focus on first in order to build your financial stability, and tell you whether it's time to hire a professional or not.
